

Fresheal Heal₂O

The Natural, Multi-Mineral Alkaline Water with Trace Minerals

Most of us drink RO water today. Yes, RO Process frees up water of harmful bacteria and pathogens but unfortunately, it also takes out ALL naturally occurring essential minerals from water before we consume it.

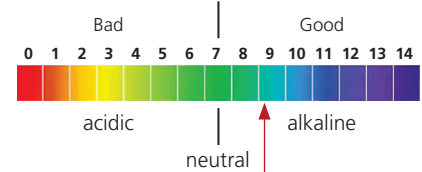

How bad is it? In 2005, **World Health Organisation (WHO)** released a detailed white paper report explaining the risks of RO water (Demineralised water) on our Health. The report explains why not having enough natural minerals in the water increases the risks of getting cancer, cardiovascular (heart) diseases, type 2 diabetes, thyroid and many other.

70% of our body is water. So, the water we drink is not only needed for hydrating the body but also to supply us with critical minerals for efficient functioning of every organ in our body.

Fresheal Heal₂O is an Alkaline Multi-Mineral water is one of our flagship products that we have created to address this huge gap. This water helps in absorption of micronutrients from the water. The advantages of **Heal₂O** water are as follows:

- **ALKALIZING:** It restores pH balance by reducing acidity levels in the body.
- **ANTIOXIDANT:** It helps to neutralize free radicals that can cause cellular and DNA damage
- **SUPER-HYDRATING:** It has smaller sized water cluster which allows better hydration of cells
- **MINERAL RICH:** It contains higher concentrations of essential minerals vital to human health
- **OXYGEN RICH:** It increases the amount of dissolved oxygen in the blood
- **DETOXIFYING:** It eliminates mucus build-up on colon walls, thus improving the body's ability to absorb important nutrients
- **CLEANSING:** It contributes to flushing out acidic waste and toxins that have accumulated in the body over time.
- **ENERGIZING:** It has negatively charged hydroxyl ions which contribute to increased energy, mental clarity, and overall alertness.
- **WEIGHT CONTROL:** It reduces the body's need to build fatty tissues to protect vital organs from acidity.

The pH scale

Heal₂O has the pH between 8.2 - 8.5
